

Indoor Air Quality

Outdoor Indoor Air Quality Interactions: Current Issues

IAQM
Institute of
Air Quality
Management

22nd June | Online

The Institute of Air Quality Management is the professional body representing professionals working in the air quality sector. We act as the voice of air quality in the UK by producing useful and timely guidance on matters affecting air quality professionals and by responding to Government consultations.

This conference aims to provide attendees with a good insight into the issues from outdoor to indoor and in-transport exposure to air quality and a valuable online CPD opportunity. This conference will cover aspects of indoor air pollution including exposure and health impacts, monitoring, the role of different ventilation strategies and emissions from building materials.

Utilise our sponsorship and exhibitor opportunities and put your organisation in front of leading professionals working in this sector.

Exhibitor package benefits

1. 5-minute presentation slot as part of the conference programme
2. Organisation logo and description listed on the IAQM website
3. Featured in promotional marketing via social media and mailing platforms
