16:45	<i>Finish</i>

Supported by

Established for 10 years, and with over 100 man years of experience in Air Quality Monitoring, Air Monitors Limited is a market leader in the Local Authority Air Quality Management sector.

Friendly and approachable, our team are pleased to talk to you about your project and advise on the best approach. It will probably be one of our truly innovative products such as AQ Mesh or the Thermo Scientific Model 1405DF the new dichotomous TEOM incorporating FDMS technology.

We have a wide product portfolio with a focus on ambient air quality - whether it be particles or gases, real time or sampling we have a solution for most applications.

Our technical team has a reputation for quality of work and for timely delivery of service support. Our sales team have each been over 20 years in the business and has a wealth of experience to call on.

To talk to Colin, Jim or Steve call 01684 857531 or email
